Bed Bugs Pre-treatment Preparation Sheet

(Please read & keep for future reference)

Appointment Date

Your appointment with PestControl.co.uk to treat your premises for an infestation of bed bugs is on:-
Treatment Date.....
Job Reference.....

Before Treatment

Before the Pest Control Officer arrives to commence treatment you must carry out the following preparations:-

- Remove all bed linen from the bed(s) to be treated.
- Take down curtains and nets.
- Empty wardrobes and drawers in the room(s) to be treated, especially divan bed drawers.
- Remove stored items from the floors and clear everything from under the bed.
- Wash all bed linen, curtains, clothing and other washable items at the hottest temperature recommended by the manufacturer or have it dry cleaned before it is used again or put away.
- Clean the rooms to be treated thoroughly. Empty the vacuum cleaner directly into the dustbin or change the bag after cleaning.
- Make sure rooms to be treated are clear enough for the Pest Control Officer to move the bed(s) and furniture easily as they treat.
- People and domestic pets must leave the rooms being treated and not be allowed to return until the insecticide is dry.

Note: If you do not carry out these preparations the Pest Control Officer will not carry out the treatment.

After Treatment

After the Pest Control Officer has carried out the treatment:-

- Do not enter these rooms for at least two hours or until the Officer advises.
- Do not vacuum the carpets for at least 15 days to allow the insecticide time to work.

Two treatments are usually sufficient to control the infestation as the products used carry on working for some weeks. The bed bugs should die off gradually after coming into contact with the insecticide. Our technician will make a 2nd appointment with you. If there is still a problem 4-6 weeks after the last visit you will need to book a new treatment. For further advice contact us today on 0845 304 5545

Looking After You

We work closely with you to understand your requirements, installing systems which are proactive in predicting where, and when, pests may compromise your home or business. We work hard to protect your home and business and strive to prevent problems re-occurring.

Health & Safety

On acceptance of this quotation, a method statement and risk assessment will be available to you, prior to commencement of work. Site health and safety specification, site inductions, method statement and risk assessments are general until work commences, at which time, site specific risk assessments are carried out.

In Summary

We are your local/national pest control company, credible and responsible. We will protect you from pests whilst ensuring that our operations are carried out safely and do not adversely affect other wildlife. I will contact you shortly to gain your thoughts and answer any questions, however please feel free to contact me should you have any queries.

Our Credentials

We are recognised as market leaders not only through our many years' experience, but also through our work with independent industry trials where we assist in developing new effective and proven pest control techniques.

Our Promise

We offer a total bird & pest control service package without the need to use sub-contractors. This enables us to fully manage and guarantee quality to our customers.

Our Goal

We are committed to providing our clients with a fast and effective service focused on exceeding our client's expectations.

Our Service

We provide a host of services to customers with bird problems and pest problems at a variety of locations such as shopping centres, industrial units, railway stations, hospitals, hotels, offices, historic buildings & churches, town halls, airfields & hangars, dockyards and landfill sites. We also work with many councils and property management agencies.
